

APPROVAL IN EALING

Posted on September 20, 2017

We have today received planning permission for the erection of a new dwelling at this backland site in the London Borough of Ealing.

We have worked closely with Edable Architecture in developing this scheme and have negotiated closely with planning officers including ensuring the development was not determined by the Planning Committee. We also provided a comprehensive Planning, Design and Access Statement that supported the application, highlighting the merits of this scheme at a difficult location which presented a number of challenges to overcome.

We are delighted with the outcome and wish our client every success in implementing the permission.
