EALING MENCAP SCHEME GRANTED

Posted on November 2, 2016

Today we received approval for the extension of the Ealing Mencap Centre, Enterprise Lodge. .

The development comprised the erection of an extension to the existing building used by the charity to provide for a utility room and extended activity room for their clients. The site is within an area of Metropolitan Open Land and in designated flood zone 2 land. We are pleased that the London Borough of Ealing supported this important scheme which will help Ealing Mencap deliver better services in the Borough.

We are delighted with the outcome.
