SOUTHALL COURT TOWNHOUSES

Posted on August 21, 2017

This week, we received planning permission for the erection of two townhouses at this site at Southall Court.

The description of development was as follows:

'Construction of a three-storey detached building comprising two dwellings including associated amenity space, car parking and refuse stoppage provision (following demolition of garages)'

We produced a comprehensive Planning, Design and Access Statement to support the submission, and maintained contact with the Council throughout the application process to ensure that any queries were answered.

We are delighted with the outcome and wish our clients success in implementing the permission.
