GUIDE TO CHANGES TO THE USE CLASSES ORDER IN ENGLAND

Posted on August 21, 2020

Our team of experts have compiled an outline table guide of the forthcoming changes to the Use Class Order, subject to an amendment that will come into force 1st September 2020. There will be a transitionary period where Use Classes prior to the change will still be relevant, in terms of permitted development rights.

This table provides guidance on the changes that come into effect, along with a short commentary from our team.

(The table is only a guide, we strongly recommend seeking advice from a qualified member of our team for further information).
