

PLANNING INSIGHT'S GUIDE TO THE USE CLASSES

Posted on July 14, 2020

Planning Insight have prepared the below downloadable table to provide guidance on temporary and permanent changes of land and buildings, along with a short policy 'heads-up'.

This table is intended to be a living document and therefore we will be updating as and when the legislation is updated alongside detailed analysis in our usual blog format.

(The table is only a guide, we strongly recommend seeking advice from a qualified member of our team for further information).
